

reconstruction of the same. We invite you to join us in realising these efforts. Let us build a new society together. A society that even the angels shall despise!!

Help us in rebuilding the broken dream!!

The truth is that we must turn to The Lord who has provided us with this beautiful and magnificent world. We must learn to ponder over the accountability of this life after our death. The life of this world is a one-time affair. We will not get a second chance. But the caravan of human existence will continue its journey until the end. We shall perish one day, but this world will continue to exist.

Dear sisters, we have not been granted this life to while away in play and merry making. We cannot spend this life in ignorance. Instead, this life demands us to be sensitive and compassionate, it asks for satisfaction and tranquillity, it desires for peace and calm. We will be able to achieve this only by submitting our will to The Creator. Otherwise we will not be saved from the failure of both the worlds.

Dear friends! We must play a good role in the reconstruction of the society at an individual and collective level. Girls Islamic Organisation Karnataka is organising a three day Campaign on the topic "A step towards building humanity". God willing, during the course of this campaign starting from 21st to 23rd August, 2015, we will conduct individual and collective meets, distribute literature related to Dawah, conduct lectures at Schools, Colleges and Girls' Hostels, and organise Public addresses, Symposiums and dramas.

Girls Islamic Organisation Karnataka appeals to you to support us through this endeavour, So that

**Together we may take...
'A step towards building
humanity'.**

IN THE NAME OF ALLAH,
THE MOST BENEFICENT, THE MOST MERCIFUL

My dear sisters,

Please join me in viewing this world from the depth of our hearts, in which we live, which is a magnificent and beautiful world! A world which is surrounded by mountains, rivers, springs, waterfalls, oceans, lakes and canals. A world filled with the sweet melody of the chirping and flying birds, and animals running and playing around, blue skies, twinkling stars and planets, the warm and cool rays of the sun and the moon, the rain, the warm and cold winds passing by, the blossoming fields and gardens. The Creator has created such a beautiful world!! The mankind resides in this world. They live as father and mother, brother and sister, son and daughter, aunts and uncles, neighbours, businessmen, poor and rich, servant and master, blacks and whites, of various colours and races and different categories of lineages and regions coexist. It is indeed a beautiful sight!! We all belong to a single set of parents, who live together in harmony and without any fear of danger from the other. A world filled with trustworthy businessmen, honest policemen, just judges, politicians and social workers who sincerely serve the people, religious leaders who sincerely preach morality and spirituality, loving and caring mothers, neighbours who support us through good and bad times, relatives, well-wishers and friends who stand by us in times of sickness and worries, people who clothe the naked, feed the hungry, empathise with the poor and needy, multiple hands that come forward to help one falling person, respectful mothers, modest daughters, daughter in laws who responsibly hold families together, loving sisters, happiness and joy reflecting everywhere. A world without pain, and fear of thieves, bandits and dacoits. What a beautiful world!!

Alas, such a world only exists in dreams!! It all just sounds like a fairy tale!!

This world is falling apart. The traders of modesty are destroying this world with their latest instruments such as cosmetics, internet, cyber café, social media and print media. The veil of modesty has been torn at the feet of the feminist Gods. The family ties are being broken, faith is beginning to disappear, a mother's womb is turning into a grave for a living female foetus, ageing parents are being pushed into old age homes, the children are being sent to hostels deprived of their parents' attention. There are burning bodies and virgins committing suicides everywhere, youngsters being burnt for dowry, the curse of betrayal, doubt and infidelity has befallen, human trafficking of women and children has become the order of the day, evil eyes have destroyed the blooming garden. Selfishness, immodesty, ill character, bribe has become the norm of today's society. Everything is evolving into an industry, such as politics, education, health care, sports, fashion, consumer goods, and prostitution, begging and marriage. As a matter of fact, industries have been created to destroy and demolish countries and nations, industries that promote inequality, poverty and the rich to get richer. Industries which manufacture bombs and weapons, and those which influence the ethics of the courts and the police with their wealth. The rich are being favoured everywhere. Religion and faith has also turned into an industry. Fake encounters, false certifications and false NGOs are also becoming an industry norm. These beasts, dragons, snakes and black serpents have turned humanity into a culture of beasts! GIO has emerged as a ray of light in this pitch darkness. It brings remedy to your pain through humanity, empathy and sympathy. It is striving to create a good individual, an ideal family and a better society through its humble efforts of
